PRODUCT INFORMATION BULLETIN:

Date: December 2016
Description: ARB Summit Side Rails and Steps
Application: Ford Everest 2015 on
Part No./Barcode: Refer to Table
Product Group: 027 – Summit Side Rails / Steps
Fitting:
  Protection Step – 1.75 hours
  Side Rail & Step – 2.25 hours
Availability Date: February 2017

Product Specification

DESIGN & DEVELOPMENT:

Due to the shorter wheel base of the Everest compared to the PXII Ranger, specific Summit Side Rails and Steps have been developed to suit the Everest. Mount development and design has been shared between the PXII and Everest with differences in overall step length and hence aluminium extrusion requiring the new part numbers listed below.

For those customers who either don’t have an ARB front bar or don’t require a front rail, a return is available to enable fitment of a protection step.

The design registered clamp offers a neat and practical solution to connect the 60.3mm side rail to the upright of the ARB Summit

Two spacers are included in the fitting kit to allow for different tube lengths due to variances in bar to chassis tolerances. The ARB branded cover also allows for adjustment in the side rail to upright positioning.

The step section is an anodised silver extrusion featuring front to rear ridges for grip. Extrusions are supplied with the front section selected.
PROTECTION & STYLING CHARACTERISTICS:

- Vehicle specific design for the Ford Everest
- Registered design of styling and design components.
- Durable steel construction for maximum protection.
- Manufactured from mandrel bent 60.3mm x 2.6mm ERW tubing.
- Finished in durable black powder coat with the option to colour code to vehicle colour.
- Template provided for drilling of the central mount bolt.
- Anodised extrusion supplied with the front selection.
- Supplied with corrosion resistant fasteners.
- The step section 4440180 weighs approximately 37kg, front rail 4440190 weighs approximately 18kg, return 4440200 weighs approximately 6kg.

ANODISED STEP EXTRUSION:

A silver anodised extruded aluminium section with front to rear ridges is supplied with the front section selected.

SIDE RAIL CLAMP:

Prominently featuring the ARB logo, and manufactured from 30% reinforced Nylon plastic, the new Side rail clamp slides over the side rail, allowing for fitment of aluminium spacers to adjust for varying vehicle chassis to bar fitment tolerances.
