Product Specification

Keeping accurate tyre pressure for your tyres is a necessity for good fuel economy, prolonged tyre life and maximum traction. Introducing the new ARB digital tyre inflator which provides accurate reading and inflation for your next 4WD adventure.

Most four wheel drivers understand the importance of running the correct tyre pressures for different situations and or load variances. This is why it’s so important to carry an accurate air pressure gauge and tyre inflation equipment in your vehicle, especially when driving off road. The new ARB digital tyre inflator makes checking and adjusting your vehicle’s tyre pressures a fast and simple operation thanks to its large easy to read digital blue backlight display, big thumb operated inflator button and easy access deflator bleed button.
