Date:
September 2017

Description:
ARB Summit Bar

Application:
Isuzu Dmax 11/16on

Part No. & Barcode:
3448530 - 9332018046598

Product Group:
026 – Summit Bull Bars

Fitting:
5 Hours

Availability Date:
Available to order

Product Specification

ARB’s mounting system developed for the 2012 on model Dmax has largely been retained with the added chassis reinforcing and attachment to the vehicle chassis providing a mounting platform that is both airbag compatible and capable of withstanding winch loads up to 10,000lbs both angled and in-line with the vehicle.

The ARB Summit bar features the latest styling from ARB including press form cover straps, larger ARB fog light and surround, two piece split pan grill with access door for winch clutch operation and a recessed winch control box mount for a sleek, integrated appearance.

A Dmax specific front rail section is in final stages of design and development under part number 4448340. Full Product Information will be advised in a separate Product Information Bulletin. Summit Side Step part number 4448300 and Return part number 4448330 are shared with the post December 2016 Holden Colorado.

ARB UVP part number 5448110 and ARB Recovery Points part numbers 2848010 and 2848020 are carry over items from the previous Isuzu Dmax. Fitment of the manual transmission UVP part number 5448130 is still to be confirmed.
Protection and Styling Characteristics:
- Registered design of styling and components.
- Durable steel construction for maximum protection.
- Incorporates ARB’s renowned multi fold upswept and tapered wing design for optimum strength and approach angle.
- 30mm radius on wings and centre section.
- Engineered, air bag compatible mounting system secures to the chassis via high tensile bolts.
- Split pan design for maximum strength and airflow.
- 3 piece grill design for split pan. New twin door design.
- Extensive protection panels on centre and either side.
- Pressed form top pan and aluminium (powder coated black) winch cover panel.
- Twin Hi-Lift jack points located beneath each buffer for optimum strength.
- Durable two piece buffers.
- ARB LED Indicator and Clearance light.
- Two aerial brackets located on the top of the centre tube.
- Will accommodate Warn, Magnum, Bushranger, Smittybilt low mount model electric winches up to 10,000lb.
- Provision to accommodate ARB Intensity AR21, AR32, AR40 Light Bar and a range of Bushranger and IPF lights.
- Provision for optional ARB Fog light kit part no 3500590.
- Provision for optional ARB Fog light covers part no 3500680.
- Provision for Optional Summit Roller Fairlead Cover part no 3500850.
- Bar adds approximately 190mm to the overall length of the vehicle.
- Approximate weight of the bar, chassis mounts and fitting kit is 82kg. Approximately 6kg is removed from the vehicle for fitment of the bar.
- Zinc rich primer for additional corrosion resistance.
- Finished in satin black powder coat.
- PN 3500700 ANTI REFLECTIVE TAPE KIT is recommended to eliminate glare from the headlights on the outer tubes where the driver or passenger seating position may be elevated or forward.

Buffers, Split Pan Grill and Fog Light Surround:

The Summit Bar for the Dmax features two piece buffers, split pan grill and ARB’s Fog Light Surround (suits ARB Fog Light part number 3500590). All three components are designed to integrate with each other and the bar design.

The upright section of the two piece buffer has a style line to complement the fog light surround. The intersection of the 62.6mm press formed cover strap and buffer is
covered by a covered strap intersection cap to neatly finish the pressed form cover strap.

To provide access to winch clutch handles and to assist with valuable air flow to the radiator the split pan has a three piece grill for an integrated, OE style appearance.

Dual access doors allow access to winch clutch handles and greatly assist with fitment of driving lights.

Fog Lights:

Fitment of ARB Fog light part number 3500590 is optional. ARB Auxiliary Fog Light Loom part number 3500530 is required if fitting the ARB Fog Light Option. Fitment of the 3500640 adaptor loom is not recommended due to the lower 19W OE fog light and wiring.

The fog light surround will be supplied in a natural black finish to complement the buffer design.

A clear fog light cover is available separately under part number 3500680.

LED Clearance Light / Turn Signals:

Press form apertures in each wing are provided to fit ARB’s LED clearance light / turn signal.

Pressed Top Pan and Winch Cover:

The top pan of the Summit range of bars feature a press form to add strength and a 4mm aluminium press formed winch cover panel, for when no winch is being fitted.

When fitted, the winch cover panel is recessed in the press form top pan to give a level and integrated appearance.

The cover is supplied in a satin black powder coat finish.
**Antenna Mounts:**

Two aerial mounts are welded to the centre cross tube to allow fitment of UHF/AM radio, mobile phone aerials/antennas or sand flags.

Synchro pulse controlled welding is used for a visually appealing weld with seam quality that is comparable with that of a TIG weld.

---

**Driving Light Mounts:**

The press formed top pan includes laser cut holes for fitment of a range of compatible driving lights including ARB Intensity AR21, AR32, AR40 Light Bar, Bushranger and IPF 800, 808 and 900 Series lights.

Pinning holes for ARB Intensity lights are included. Ensure that all driving lights installed (position and function), comply with your local regulations.

---

**Hi-Lift Jack Points:**

Hi-Lift jack points are located directly below the buffers.

The Hi-Lift jack point is welded directly to the upright on either side and is designed to prevent the Hi-Lift jack from interfering with the buffer.
Winch Model Fitment:

The following winches fit the Dmax ARB Summit Winch bar:

- Warn M8000, XD9000, 9.5XP, 9.5XDC
- Warn ZEON 8, 8-S, 10 and 10-S
- Warn ZEON Platinum 10 and 10-S
- Warn Magnum 8,10 and 10-S
- Smittybilt Gen2 X20 10K
- Bushranger DV-9TH, DS-9.5TH and Seal 9.5TH

The Summit bar has an integrated control box mount that recesses the control box lower in the pan. Different mount holes and control box brackets are provided to suit different winches. Winch fitting kit instructions have further information as to which mount hole or bracket is suitable.

Please note that not all winches on the market will have corresponding control box mount holes pre-drilled.

Additional fit kits are required depending on the winch being fitted:

- 3500720 WINCH INSTALL KIT SUMMIT BAR. This kit includes a flip up number plate bracket.
- Warn ZEON and ZEON Platinum fitment require Warn part No W89965 Short Wiring Kit.
- Warn ZEON Platinum fitment may require Warn part No W94288 Enhanced Signal Kit.
- Warn XDC requires 3500410 XDC CONTROL BOX BRACKET
