Date: December 2017
Description: ARB Summit Side Rails and Steps
Application: Toyota Landcruiser 78 Series Troopcarrier 2007 On
Part No. & Barcode: Refer table below
Product Group: 027 – Summit Side Rails and Steps
Fitting: Protection Steps 1 ½ hours Side Rail and Step 1 ¾ hours
Availability Date: December 2017

Product Specification

Design & Development:

With recent updates to the 70 Series vehicle platform ARB’s engineers have used these vehicle updates as an opportunity to develop Summit Side Rails and Steps to suit the Troopcarrier.

Updates to the front gearbox mount have been incorporated into the Troopcarrier Step design to ensure fitment to pre and post facelift model Troopcarriers.

Both a protection step and a Side Rail and Step option have been developed. The front rail has been designed to suit flared and non flared fitment.

A powdercoated bolt on infill panel has been developed to provide additional protection from road debris hitting the lower sill sections of the vehicle body. This panel bolts to the aluminium extrusion.
Protection and Styling Characteristics:

- Vehicle specific mount design for the Toyota Landcruiser 78 Series Troopcarrier.
- Durable steel construction for maximum protection.
- Finished in satin black powder coat.
- Anodised step extrusion featuring ridges for additional grip. Satin black powdercoated infill panel between extrusion and vehicle cab.
- Template provided for drilling of the central mount bolt (Summit Side Rail and Step only).
- Supplied with corrosion resistant fasteners.
- Approximate weight including fasteners:
  - Troopcarrier Side Rail and Step PN 4412400 approximately 52kg
  - Troopcarrier Protection Step PN 4412440 approximately 36kg

Side Rail Clamp:

The Summit Side Rail clamp slides over the side rail, allowing for fitment of aluminium spacers to adjust for varying vehicle chassis to bar fitment tolerances.
