Date: September 2018
Description: ARB Summit Sahara Bar
Application: Toyota Hilux Rogue SR and SR5 from 08/18
Part No. & Barcode: 3914630 - 9332018054432
Product Group: 026 – Summit Bull Bars
Availability Date in Europe: upon request

Product Specification

Design and Development:

With the arrival of the Rogue Toyota Hilux in early 2018 and the facelift SR and SR5 Hilux in August 2018, ARB’s engineers have designed and developed a new Summit Sahara Bar to suit. Whilst the vehicle is visually similar to the 2015 on model, the front of the vehicle has received new bumper, grill and original equipment LED fog lights (halogen on SR).

There are minimal carry over items from the previous Hilux Summit Sahara bar. Whilst inner and outer chassis mount brackets and some of the trim pieces (buffers and 3 piece grill) are retained, the new Summit Sahara Bar has required:

- New chassis mount assembly brackets
- new wings,
- new upper and lower pans,
- new under panels
- new Sahara tube kit
Protection and Styling Characteristics:

- Vehicle specific design for the Toyota Hilux Rogue and SR / SR5 from August 2018 (May 2015 build).
- Registered design of styling and design components.
- Durable steel construction for maximum protection.
- Incorporates ARB’s renowned multi fold upsweped and tapered wing design for optimum strength and approach angle.
- 30mm radius on wings and centre section.
- Engineered, air bag compatible mounting system secures to the chassis via high tensile bolts.
- Split pan design for maximum strength and airflow.
- 2 piece grill design for split pan.
- Extensive protection panels on centre and either side.
- Pressed form top pan and aluminium (powder coated black) winch cover panel.
- Twin ARB Jack or Hi-Lift jack points located beneath each buffer for optimum strength.
- Durable two piece buffers.
- Includes ARB LED Indicator and Clearance light.
- Two aerial brackets located on the top of the centre tube.
- Will accommodate Warn, Magnum, Bushranger, Smittybilt low mount model electric winches up to 10,000lb.
- Provision to accommodate ARB Intensity LED’s and a range of Bushranger and IPF lights.
- Provision for OE Fog Lights. Refer fog light section below for additional parts required.
- Provision for optional ARB Fog light covers part no 3500680.
- Provision for Optional Summit Roller Fairlead Cover part no 3500850.
- Bar adds approximately 198mm to the overall length of the vehicle.
- Approximate weight of the bar, chassis mounts and fitting kit is 85kg. Approximately 13kg is removed from the vehicle for fitment of the bar.
- Zinc rich primer for additional corrosion resistance.
- Finished in satin black powder coat with the option to colour code to vehicle colour.

Buffers, Split Pan Grill and Fog Light Surround:

The Summit Sahara Bar for the Hilux features two piece buffers, split pan grill and a newly developed Fog Light surround that suits fitment of the Toyota OE fog light. All three components are designed to integrate with each other and the bar design.

The upright section of the two piece buffer has a style line to complement the fog light surround. The intersection of the 62.6mm press formed cover strap and buffer is covered by a covered strap intersection cap to neatly finish the pressed form cover strap.

To provide access to winch clutch handles and to assist with valuable air flow to the radiator the split pan has a three piece grill for an integrated, OE style appearance.

Dual doors allow access to winch clutch handles and to assist with driving light fitment and adjustment.

Fog Lights:

A newly developed Fog Light surround that suits fitment of the Toyota OE fog light is included in the ARB Summit Sahara Bar for the Hilux. The surround will be rolled out to other Toyota models once full production volumes become available.

The fog light surround is supplied in a natural black finish to complement the buffer design. A clear fog light cover has been developed separately under part number 3500680.

Pressed Top Pan and Winch Cover:

The top pan of the Summit range of bars feature a press form to add strength and a 4mm aluminium press formed winch cover panel, for when no winch is being fitted.

When fitted, the winch cover panel is recessed in the press form top pan to give a level and integrated appearance.

The cover is supplied in a satin black powder coat finish.
Antenna Mounts:

Two aerial mounts are welded to the centre cross tube to allow fitment of UHF/AM radio, mobile phone aerials/antennas or sand flags.

Driving Light Mounts:

The press formed top pan includes laser cut holes for fitment of a range of compatible driving lights including ARB Intensity, Bushranger and IPF 800, 808 and 900 Series lights.

Pinning holes for ARB Intensity lights are included.

Jack Points:

ARB Jack or Hi-Lift jack points are located directly below the buffers.

The jack point is welded directly to the upright on either side and is designed to prevent the jack from interfering with the buffer.
Winch Model Fitment:

The following winches fit the Hilux ARB Summit Winch bar:

- Warn M8000, XD9000, 9.5XP, 9.5XDC
- Warn ZEON 8, 8-S, 10 and 10-S
- Warn ZEON Platinum 10 and 10-S
- Current Warn Magnum 8 and 10
- Smittybilt Gen2 X20 10K.
- Bushranger DV-9TH, DS-9.5TH and Seal 9.5TH

The Summit Sahara Bar has an integrated control box mount that recesses the control box lower in the pan. Different mount holes and control box brackets are provided to suit different winches. Winch fitting kit instructions have further information as to which mount hole or bracket is suitable.

Please note that not all winches on the market will have corresponding control box mount holes pre-drilled.

Additional fit kits are required depending on the winch being fitted:

- 3500720 WINCH INSTALL KIT SUMMIT BAR. This kit includes a flip up number plate bracket.
- Warn ZEON and ZEON Platinum fitment require Warn part No W89965 Short Wiring Kit.
- Warn ZEON Platinum fitment may require Warn part No W94288 Enhanced Signal Kit.

LED Clearance Light / Turn Signals:

Press form apertures in each wing are provided to fit ARB’s LED clearance light / turn signal.
Compatibility with ARB Recovery points:

It is recommended that ARB Recovery Points (PN 2814020 and PN 2814030) are fitted at the same time as the Summit Sahara Bar is fitted.

Fitment of the recovery points requires the chassis mounts to be removed and refitted if already fitted.

Please refer to separate Product Information Bulletin No.70 for further details on the ARB Recovery points for the Hilux.
